## 2 Contractor Requirements: Scope of Work

### 2.1 Summary Statement

- 2.1.1 The Public Service Commission (“the Commission”) is issuing this Request for Proposals (RFP) in order to comply with the Maryland General Assembly’s, Senate Bill 528 (“SB528”) or The Climate Solutions Now Act of 2022.
- 2.1.2 It is the State’s intention to obtain goods and services, as specified in this RFP, from a Contract between the selected Offeror and the State.

- 2.1.4 An Offeror, either directly or through its subcontractor(s), must be able to provide all goods and services and meet all of the requirements requested in this solicitation and the successful Offeror (the Contractor) shall remain responsible for Contract performance regardless of subcontractor participation in the work.

### 2.2 Background, Purpose and Goals

During the 2022 Session of the Maryland General Assembly, Senate Bill 528 (“SB528” or “The Climate Solutions Now Act of 2022” or CSNA) was introduced. The bill passed by veto proof majorities in both the House and Senate and the Governor allowed the measure to take effect and become law on April 9, 2022 without his signature. SB528 requires Maryland to achieve net-zero greenhouse gas levels (“GHG”) by 2045, versus the prior standard which called for the state to reduce GHG emissions by 90% versus 2006 levels by 2050. The State is to reduce GHG emissions by 60% from 2006 levels by 2031; the law had previously called for a 40% reduction from 2006 levels by 2030. With regard to energy conservation, in per capita peak demand of electricity consumed in each utility's respective service territory using 2016 as the base year, SB528 calls for incremental reductions of 2% for the years 2022 through 2024; 2.25% for 2025 and 2026; and 2.5% in 2027 and each year thereafter. In addition, Senate Bill 65 passed in 2021 expands Maryland's RPS target to require that 52.5% of electricity sold in the state by 2030 and after come from renewable resources, including a 14.5% solar carve-out required from in-state resources, among other things.

The Climate Solutions Now Act of 2022 statute, among other things, requires the Maryland Public Service Commission (“Commission”) to conduct a study, with input from the Maryland Building Codes Administration (“BCA”)<sup>1</sup>, of "the capacity of each [utility's] gas and electric distribution systems to successfully serve customers under a managed transition to a highly electrified building sector." A report of the PSC's findings is required by September 30, 2023.

---

<sup>1</sup> The BCA is to "develop recommendations for an all electric building code for the State, including exemptions for particular industries ... local conditions, and sectors deemed critical infrastructure vital to the interest of national security." Input from the BCA regarding projected annual and peak summer and winter gas and electricity demand is required to be forwarded to the Commission by January 1, 2023.

Specific requirements outlined in SB528 for this “Gas & Electric System Planning Study for a Managed Transition to Electrification” are described in the relevant parts of the Maryland Code, Environment § 2–1603 Section 10 below:

(b) (1) The Building Codes Administration shall:

(vi) on or before January 1, 2023, report to the Public Service Commission on the projected annual and peak summer and winter gas and electric loading impacts of electrification, categorized by building type and size, in sufficient detail for gas and electric public service companies to develop the plans required under subsection (c)(1)(i) of this section; and

(c) (1) The Public Service Commission shall complete a general system planning study, for gas and electric companies with total gross annual revenues equal to or greater than 3% of the total gross annual revenues of all public service companies in the State, assessing the capacity of each company’s gas and electric distribution systems to successfully serve customers under a managed transition to a highly electrified building sector.

(2) The study required under paragraph (1) of this subsection shall:

- (i) use a projection of average growth in system peak demand between 2021 and 2031 to assess the overall impact on each gas and electric distribution system;
- (ii) compare future electric distribution system peak and energy demand load growth to historic rates;
- (iii) consider the impacts of energy efficiency and conservation and electric load flexibility;
- (iv) consider the capacity of the existing distribution systems and projected electric distribution system improvements and expansions to serve existing electric loads and projected electric load growth; and
- (v) assess the effects of shifts in seasonal system gas and electric loads.

(3) (i) The Public Service Commission may work with consultants and experts to complete the study required under paragraph (1) of this subsection.  
(ii) Gas and electric public service companies shall provide information to the Commission and its consultants and experts, as necessary, to complete the study required under paragraph (1) of this subsection.  
(iii) The Commission may coordinate the preparation of the study under this subsection with that required for the annual report under § 7–802 of the Public 32 Utilities Article, as enacted by Section 4 of this Act, and the interim reports required under Section 14 of this Act.

(4) On or before September 30, 2023, the Public Service Commission shall report its findings to the Legislative Policy Committee, in accordance with § 2–1257 of the State Government Article.

*NOTE: The full legislation is available online at:*  
<https://mgaleg.maryland.gov/2022RS/bills/sb/sb0528E.pdf>

The following Maryland natural gas and electric utilities (“in-scope” utilities) will be included in the project.

- Baltimore Gas and Electric Company (“BGE”)
- Columbia Gas of Maryland (“CG”)
- Choptank Electric Cooperative Inc. (“Choptank”)
- Delmarva Power & Light Company (“Delmarva”)
- Potomac Edison (“PE”)
- Potomac Electric Power Company (“Pepco”)
- Southern Maryland Electric Cooperative Inc. (“SMECO”)
- Washington Gas (“WG”)

To support a Gas<sup>2</sup> & Electric System Planning Study for a Managed Transition to Electrification, as required by SB528, the Commission is seeking an experienced consultant that has the expertise in the energy delivery industry to support Maryland’s electrification policy goals to achieve greenhouse gas targets. In particular, this engagement will require the ability to coordinate with gas and electric utilities, Staff and other stakeholders to develop study requirements and assumptions, frame a study deliverables work-plan, evaluate gas and electric system impacts and solutions, and provide recommendations for in-scope utilities to successfully serve customers under a managed transition to a highly electrified building sector between 2021 and 2031.

## 2.3 Responsibilities and Tasks

This Gas & Electric System Planning Study for a Managed Transition to Electrification (“Electrification Study”) consists of four phases, a Pre-Plan Study phase, a Plan Study phase, a Conduct Study phase and a Prepare Study Report phase.

### 2.3.1 Pre-Plan Study Phase

The Consultant will not be involved in this phase.

### 2.3.2 Plan Study Phase

The Consultant will actively participate in an Electrification Study Working Group (“ESWG”) convened by the Commissions and led by the Commission’s Technical Staff (“Staff”). The Consultant will directly engage in-scope utilities to assess grid capacity impacts and grid needs to ensure reliable electric service under a managed transition to a highly electrified building sector between 2021 and 2031 and to assess the overall impact on each territory’s unique natural gas and electric distribution systems. The Consultant will also directly engage with other workgroup stakeholders to develop assumptions and task deliverables. Workgroup stakeholders will develop an initial set of assumptions, study scenarios and identify data sources. The study consultant will utilize their capabilities and experience to work with stakeholders to finalize these

<sup>2</sup> Note: Gas is included in scope because electrification may result in gas project removals from future plans or stranded assets.

assumptions, study scenarios and data sources. It is anticipated that the ESWG will meet once every two weeks and meetings will be held virtually except for the check-in meetings with the Commission at the end of each project phase. Tasks for the Plan Study Phase are:

- 2.3.2.1 Evaluate initial Electrification Study assumptions, scenarios and Electrification Study Data sources provided by workgroup stakeholders and recommend adjustments needed to successfully conduct an Electrification Study. These tasks shall include, but are not limited to
  - A. Work with workgroup stakeholders to evaluate and finalize the assumptions required to assess grid capacity impacts and grid needs to ensure reliable electric service under a managed transition to a highly electrified building sector between 2021 and 2031 and to assess the overall impact on each territory's unique natural gas and electric distribution systems for the electrification study's in-scope utilities;
  - B. Work with workgroup stakeholders to evaluate and finalize the assumptions, penetrations and adoption rates to be used for any foreseeable advanced technology implementation such as electric vehicles, renewable energy, behind the meter solar, community solar, energy storage, and different mixes of deployment for ground source heat pumps, air source heat pumps, dual fuel heating systems (i.e., a hybrid system made-up of both an electric heat pump and a gas furnace) and cold climate heat pumps and other grid flexible technologies utilities should adopt to manage growth in seasonal system peak demand between 2021 and 2031;
  - C. Work with workgroup stakeholders to determine assumptions needed to determine the likely gas and electric loading impacts of electrification expected from building electrification including provisions in the CSNA which identify buildings subject to future electrification requirements or that allow buildings to choose to pay alternative compliance payments;
  - D. Work with workgroup stakeholders to coordinate assumptions with the greenhouse gas emissions reduction plans to reduce emissions 60% by 2031 (60x31) as some of these results may become available prior to the "60x31" study completion. This "60x31" study is expected to be finalized in June 2023 by the Maryland Department of Environment.;
  - E. Work with workgroup stakeholders to evaluate and finalize the likely natural gas and electric loading impacts of electrification and the assumptions that should be utilized in developing the impacts of energy efficiency, conservation and electric load flexibility including, but not limited to:
    - 1) Whole home weatherization programs, credits and rebates in the Inflation Reduction Act of 2022, provisions of the CSNA for low-income weatherization, revised EmPOWER targets from Maryland Code, Public Utilities Article 7-211 (g)(2)(i) as amended in the in the CSNA, and applicable provisions in the Infrastructure Investment and Jobs Act (IIJA) and,
    - 2) Non-residential load flexibility using interruptible tariffs, dynamic pricing, pre-heating and,

- 3) Residential load flexibility using dynamic pricing, smart thermostat pre-heating, Home Electric Vehicle (EV) charging Time of Use (TOU), Behind-the-meter (BTM) storage;
- F. In addition to a “business as usual” load forecast scenario, define up to six alternative electrification scenarios consisting of sets of assumptions that can be logically grouped together. One of these six scenarios should be a maximum electrification “60x31” scenario. Work with workgroup stakeholders to finalize assumptions for these electrification scenarios to test the sensitivity of the natural gas and electric load forecasts given credible penetration and adoption rates for:
- 1) the ranges of achievable levels of customer enrollment for energy efficiency, energy conservation and electric load flexibility programs due to potential adoption rate assumptions and,
  - 2) the achievable building electrification levels in consideration of adoption rates of alternative compliance payments and,
  - 3) foreseeable advanced technology implementation including alternative forecasts for renewable energy, electric vehicle penetration, renewable energy, behind the meter solar, community solar, energy storage and different mixes of deployment for ground source heat pumps, conventional air source heat pumps, dual fuel heating systems and cold climate air source heat pumps;

#### 2.3.2.2 Develop a Detailed Study Plan, Deliverable Schedule and Study Milestone Schedule

Coordinate an analysis with the ESWG and prepare a comprehensive written report that describes all deliverables and schedule milestones needed from Utilities and any other ESWG stakeholders in order to complete all tasks in the “Plan Study” phase, the “Conduct Study” phase and the “Prepare Study Report” phase. An initial Detailed Study Plan, Deliverable Schedule and Study Milestone Schedule should be completed within one month of a “Notice to Proceed” and be updated at least monthly with changes and status through-out the project duration. At a minimum the study deliverables must satisfy the requirements in the Maryland Code, Environment § 2-1603 SECTION 10(c).

#### 2.3.3 Conduct Study Phase

The Consultant will conduct studies and provide deliverables per the milestone schedule. The Consultant will also provide status reports at bi-weekly ESWG Meetings. The Consultant will review study results with the workgroup and consider workgroup and Commission feedback and make modifications to the study, if required. The Consultant will also provide guidance to the ESWG and resolve workgroup questions and issues that may arise. The Consultant will also advise the Staff Project Leader (“Contract Manager”) of any obstacles to obtaining data or the cooperation of utilities or other workgroup stakeholders assigned Electrification Study tasks so an expedient intervention can be made to keep the project on-track. Conduct Study Phase tasks include, but are not limited to:

- A. Simulate electric load growth and natural gas reductions due to meeting Maryland’s climate goals between 2021 and 2031 for each study scenario as an alternative approach to detailed system studies to determine the overall impacts on the electrification study’s in-scope utility’s natural gas and electric distribution systems;
- B. In simulating electric growth and natural gas reductions, forecast seasonal system peak and hourly load shape shifts between gas and electric demand in consideration of historic load shapes and growth rates, building and transportation electrification, energy efficiency, conservation, electric load flexibility and advanced technology implementation for the electrification study’s in-scope utilities between 2021 and 2031;
- C. As required by CSNA Section 10(c)(1), determine what recommendations are needed for the in-scope utilities to successfully serve customers under a managed transition to a highly electrified building sector between 2021 and 2031.

### **2.3.4 Prepare Study Report Phase**

Submit a Final Report including an Executive Summary suitable for legislators with conclusions, recommendations and a written analysis that shall be accompanied by spreadsheets, tables, charts, and other appendices as necessary. A draft of the Final Report shall be submitted to the Contract Manager for review and approval.

The draft of the Final Report will be reviewed in both an in-person meeting with Workgroup Stakeholders and in a separate in-person meeting with the Commission between August 1, 2023 and August 31, 2023. Any required revisions requested shall be submitted to the Contract Manager within 5 business days of requested revision. After approval of the draft and any revisions by the Contract Manager, the Final Report shall be submitted to the Contract Manager within 5 Business Days of the Contract Manager’s approval and will be considered complete upon receipt of written approval from the Contract Manager. Once the Final Report is considered complete the Commission will forward the Final Report to the Legislative Policy Committee by September 30, 2023.

After the successful conclusion of the “Prepare Study Report” phase, the Consultant shall be required to participate in any legislative proceeding(s) requested to present the report’s results. These reviews are not expected to exceed two in-person or virtual meetings and they may occur anytime between October 2023 and March 2024.

### 4.3 Questions

- 4.3.1 All questions, including concerns regarding any applicable MBE or VSBE participation goals, shall identify in the subject line the Solicitation Number and Title (PSC# 05.19.22 - BPM031339 - Gas & Electric System Planning Study - SB528 Question), and shall be submitted in writing via e-mail to the Procurement Officer no later than the date and time specified the Key Information Summary Sheet.

- 4.3.2 Answers to all questions that are not clearly specific only to the requestor will be distributed via the same mechanism as for RFP amendments, and posted on eMMA.
- 4.3.3 The statements and interpretations contained in responses to any questions, whether responded to verbally or in writing, are not binding on The Commission unless it issues an amendment in writing.

#### 4.4 Procurement Method

A Contract will be awarded in accordance with the Competitive Sealed Proposals method under COMAR 21.05.03.

#### 4.5 Proposal Due (Closing) Date and Time

- 4.5.4 The date and time of an e-mail submission is determined by the date and time of arrival in the e-mail address indicated on the Key Information Summary Sheet.
- 4.5.5 Proposals may be modified or withdrawn by written notice received by the Procurement Officer before the time and date set forth in the Key Information Summary Sheet for receipt of Proposals.
- 4.5.6 Proposals may not be submitted by e-mail or facsimile. Proposals will not be opened publicly.

#### 4.6 Multiple or Alternate Proposals

Multiple or alternate Proposals will not be accepted.

#### 4.7 Economy of Preparation

Proposals should be prepared simply and economically and provide a straightforward and concise description of the Offeror's Proposal to meet the requirements of this RFP.

#### 4.8 Public Information Act Notice

- 4.8.1 The Offeror should give specific attention to the clear identification of those portions of its Proposal that it considers confidential and/or proprietary commercial information or trade secrets, and provide justification why such

materials, upon request, should not be disclosed by the State under the Public Information Act, Md. Code Ann., General Provisions Article, Title 4 (See also RFP Section 5.3.2.B “Claim of Confidentiality”). This information should be identified by page and section number and placed after the Title Page and before the Table of Contents in the Technical Proposal and if applicable, separately in the Financial Proposal.

- 4.8.2** Offerors are advised that, upon request for this information from a third party, the Procurement Officer is required to make an independent determination whether the information must be disclosed.

## 4.9 Award Basis

A Contract shall be awarded to the responsible Offeror(s) submitting the Proposal that has been determined to be the most advantageous to the State, considering price and evaluation factors set forth in this RFP (see COMAR 21.05.03.03F), for providing the goods and services as specified in this RFP. See RFP Section 6 for further award information.

## 4.10 Oral Presentation

Offerors may be required to make oral presentations to State representatives. Oral presentations are considered part of the Technical Proposal. Offerors must confirm in writing any substantive oral clarification of, or change in, their Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror’s Proposal. The Procurement Officer will notify Offerors of the time and place of oral presentations.

## 4.11 Duration of Proposal

Proposals submitted in response to this RFP are irrevocable for the latest of the following: 120 days following the Proposal due date and time, best and final offers if requested (see Section 6.5.2), or the date any protest concerning this RFP is finally resolved. This period may be extended at the Procurement Officer’s request only with the Offeror’s written agreement.

## 4.12 Revisions to the RFP

- 4.12.1** If the RFP is revised before the due date for Proposals, The Commission shall post any addenda to the RFP on eMMA and shall endeavor to provide such addenda to all prospective Offerors that were sent this RFP or are otherwise known by the Procurement Officer to have obtained this RFP. It remains the responsibility of all prospective Offerors to check eMMA for any addenda issued prior to the submission of Proposals.
- 4.12.2** Acknowledgment of the receipt of all addenda to this RFP issued before the Proposal due date shall be included in the Transmittal Letter accompanying the Offeror’s Technical Proposal.
- 4.12.3** Addenda made after the due date for Proposals will be sent only to those Offerors that remain under award consideration as of the issuance date of the addenda.
- 4.12.4** Acknowledgement of the receipt of addenda to the RFP issued after the Proposal due date shall be in the manner specified in the addendum notice.
- 4.12.5** Failure to acknowledge receipt of an addendum does not relieve the Offeror from complying with the terms, additions, deletions, or corrections set forth in

the addendum, and may cause the Proposal to be deemed not reasonably susceptible of being selected for award.

#### 4.13 Cancellations

- 4.13.1 The State reserves the right to cancel this RFP, accept or reject any and all Proposals, in whole or in part, received in response to this RFP, waive or permit the cure of minor irregularities, and conduct discussions with all qualified or potentially qualified Offerors in any manner necessary to serve the best interests of the State.
- 4.13.2 The State reserves the right, in its sole discretion, to award a Contract based upon the written Proposals received without discussions or negotiations.
- 4.13.3 In the event a government entity proposes and receives the recommendation for award, the procurement may be cancelled and the award processed in accordance with COMAR 21.01.03.01.A(4).
- 4.13.4 If the services that are the subject of the RFP are currently being provided under an interagency agreement with a public institution of higher education and the State determines that the services can be provided more cost effectively by the public institution of higher education, then the RFP may be cancelled in accordance with Md. Code Ann., State Finance and Procurement Art., § 3-207(b)(2).

#### 4.14 Incurred Expenses

The State will not be responsible for any costs incurred by any Offeror in preparing and submitting a Proposal, in making an oral presentation, providing a demonstration, or performing any other activities related to submitting a Proposal in response to this solicitation.

- 4.16.1 Offerors must be able to provide all goods and services and meet all of the requirements requested in this solicitation and the successful Offeror shall be responsible for Contract performance including any subcontractor participation.
- 4.16.2 All subcontractors shall be identified and a complete description of their role relative to the Proposal shall be included in the Offeror's Proposal. If applicable, subcontractors utilized in meeting the established MBE or VSBE participation goal(s) for this solicitation shall be identified as provided in the appropriate Attachment(s) to this RFP (see **Section 4.26** "Minority Participation Goal" and **Section 4.27** "VSBE Goal").
- 4.16.3 If the Offeror is the subsidiary of another entity, all information submitted by the Offeror, including but not limited to references, financial reports, or experience and documentation (e.g. insurance policies, bonds, letters of credit) used to meet minimum qualifications, if any, shall pertain exclusively to the Offeror, unless the parent organization will guarantee the performance of the

subsidiary. If applicable, the Offeror's Proposal shall contain an explicit statement, signed by an authorized representative of the parent organization, stating that the parent organization will guarantee the performance of the subsidiary.

- 4.16.4** A parental guarantee of the performance of the Offeror under this Section will not automatically result in crediting the Offeror with the experience or qualifications of the parent under any evaluation criteria pertaining to the actual Offeror's experience and qualifications. Instead, the Offeror will be evaluated on the extent to which the State determines that the experience and qualifications of the parent are applicable to and shared with the Offeror, any stated intent by the parent to be directly involved in the performance of the Contract, and the value of the parent's participation as determined by the State.

#### **4.17 Acceptance of Terms and Conditions**

By submitting a Proposal in response to this RFP, the Offeror, if selected for award, shall be deemed to have accepted the terms and conditions of this RFP and the Contract, attached hereto as **Attachment M**. Any exceptions to this RFP or the Contract shall be clearly identified in the Executive Summary of the Technical Proposal. **All exceptions will be taken into consideration when evaluating the Offeror's Proposal. The Commission reserves the right to accept or reject any exceptions.**

#### **4.18 Proposal Affidavit**

A Proposal submitted by the Offeror must be accompanied by a completed Proposal Affidavit. A copy of this Affidavit is included as **Attachment C** of this RFP.

#### **4.19 Contract Affidavit**

All Offerors are advised that if a Contract is awarded as a result of this solicitation, the successful Offeror will be required to complete a Contract Affidavit. A copy of this Affidavit is included for informational purposes as **Attachment N** of this RFP. This Affidavit must be provided within five (5) Business Days of notification of recommended award. For purposes of completing Section "B" of this Affidavit (Certification of Registration or Qualification with the State Department of Assessments and Taxation), a business entity that is organized outside of the State of Maryland is considered a "foreign" business.

#### **4.20 Compliance with Laws/Arrearages**

By submitting a Proposal in response to this RFP, the Offeror, if selected for award, agrees that it will comply with all federal, State, and local laws applicable to its activities and obligations under the Contract.

By submitting a response to this solicitation, each Offeror represents that it is not in arrears in the payment of any obligations due and owing the State, including the payment of taxes and employee benefits, and shall not become so in arrears during the term of the Contract if selected for Contract award.

#### **4.21 Verification of Registration and Tax Payment**

Before a business entity can do business in the State, it must be registered with the State Department of Assessments and Taxation (SDAT). SDAT is located at State Office Building, Room 803, 301 West Preston Street, Baltimore, Maryland 21201. For registration information, visit <https://www.egov.maryland.gov/businessexpress>.

It is strongly recommended that any potential Offeror complete registration prior to the Proposal due date and time. The Offeror's failure to complete registration with SDAT may disqualify an otherwise successful Offeror from final consideration and recommendation for Contract award.

#### 4.22 False Statements

Offerors are advised that Md. Code Ann., State Finance and Procurement Article, § 11-205.1 provides as follows:

- 4.22.1 In connection with a procurement contract a person may not willfully:

#### 4.23 Payments by Electronic Funds Transfer

By submitting a Proposal in response to this solicitation, the Offeror, if selected for award:

- 4.23.1 Agrees to accept payments by electronic funds transfer (EFT) unless the State Comptroller's Office grants an exemption. Payment by EFT is mandatory for contracts exceeding \$200,000. The successful Offeror shall register using the COT/GAD X-10 Vendor Electronic Funds (EFT) Registration Request Form.
- 4.23.2 Any request for exemption must be submitted to the State Comptroller's Office for approval at the address specified on the COT/GAD X-10 form, must include the business identification information as stated on the form, and must include the reason for the exemption. The COT/GAD X-10 form may be downloaded from the Comptroller's website at:

Promulgated pursuant to Md. ## 4.26 MBE Participation Goal

### 4.26.1 Establishment of Goal and Subgoals

An overall MBE subcontractor participation goal as identified in the Key Information Summary Sheet has been established for this procurement, representing a percentage of the total Contract dollar value, including all renewal option terms, if any, has been established for this procurement.

Notwithstanding any subgoals established for this RFP, the Contractor is encouraged to use a diverse group of subcontractors and suppliers from any/all of the various MBE classifications to meet the remainder of the overall MBE participation goal.

By submitting a response to this solicitation, the Offeror acknowledges the overall MBE subcontractor participation goal and subgoals, and commits to achieving the overall goal and subgoals by utilizing certified minority business enterprises, or requests a full or partial waiver of the overall goal and subgoals.

**An Offeror that does not commit to meeting the entire MBE participation goal outlined in this Section 4.26 implies that it is requesting a full or partial waiver for the remainder of the MBE goal or subgoals as applicable and, if recommended for award, shall submit documentation supporting its good faith efforts to meet the MBE goal made prior to submission of its proposal as outlined in Attachment D-1B, Waiver Guidance. Failure of an Offeror to properly complete, sign, and submit Attachment D-1A at the time it submits its Technical Response(s) to the RFP may result in the State's rejection of the Offeror's Proposal.**

  3. The Offeror requesting a waiver should review **Attachment D-1B** (Waiver Guidance) and **D-1C** (Good Faith Efforts Documentation to Support Waiver Request) prior to submitting its request.

***If the Offeror fails to submit a completed Attachment D-1A with the Proposal as required, the Procurement Officer shall determine that the Proposal is not reasonably susceptible of being selected for award, unless the inaccuracy is determined to be the result of a minor irregularity that is waived or cured in accordance with COMAR 21.06.02.04.***

- 4.26.3 Offerors are responsible for verifying that each MBE (including any MBE prime and MBE prime participating in a joint venture) selected to meet the goal and any subgoals and subsequently identified in **Attachment D-1A** is appropriately certified and has the correct NAICS codes allowing it to perform the committed work.

***If the recommended awardee fails to return each completed document within the required time, the Procurement Officer may determine that the recommended awardee is not responsible and, therefore, not eligible for Contract award. If the Contract has already been awarded, the award is voidable.***

- 4.26.5** A current directory of certified MBEs is available through the Maryland State Department of Transportation (MDOT), Office of Minority Business Enterprise, 7201 Corporate Center Drive, Hanover, Maryland 21076. The phone numbers are (410) 865-1269, 1-800-544-6056, or TTY (410) 865-1342. The directory is also available on the MDOT website at <http://mbe.mdot.maryland.gov/directory/>. All of the referenced documents will be considered a part of the Proposal for order of precedence purposes (see Contract – **Attachment M, Section 2.1**).
- 4.26.8** The Offeror is advised that liquidated damages will apply in the event the Contractor fails to comply in good faith with the requirements of the MBE program and pertinent Contract provisions. (See Contract – **Attachment M, Liquidated Damages for MBE, section 39**).
- 4.26.9** As set forth in COMAR 21.11.03.12-1(D), when a certified MBE firm participates on a contract as a prime contractor (including a joint-venture where the MBE firm is a partner), a procurement agency may count the distinct, clearly defined portion of the work of the contract that the certified MBE firm performs with its own work force towards fulfilling up to fifty-percent (50%) of the MBE participation goal (overall) and up to one hundred percent (100%) of not more than one of the MBE participation subgoals, if any, established for the contract.

In order to receive credit for self-performance, an MBE prime must list its firm in Section 4A of the MBE Participation Schedule (**Attachment D-1A**) and include information regarding the work it will self-perform. For the remaining portion of the overall goal and the subgoals, the MBE prime must also identify other certified MBE subcontractors [see Section 4B of the MBE Participation Schedule (**Attachment D-1A**)] used to meet those goals. If dually-certified, the MBE prime can be designated as only one of the MBE subgoal classifications but can self-perform up to 100% of the stated subgoal.

As set forth in COMAR 21.11.03.12-1, once the Contract work begins, the work performed by a certified MBE firm, including an MBE prime, can only be counted towards the MBE participation goal(s) if the MBE firm is performing a commercially useful function on the Contract. Include the name, email address, and telephone number of a contact person for the Offeror shall be included on the outside of the packaging for each volume. Unless the resulting package will be too unwieldy, the State's preference is for the separately sealed Technical and Financial Proposals to be submitted together in a single package to the Procurement Officer and including a label bearing:

- RFP title and number,
- Name and address of the Offeror, and
- Closing date and time for receipt of Proposals

**5.2.8** Label each electronic media (flash drive preferred) on the outside with the RFP title and number, name of the Offeror, and volume number. Electronic media must be packaged with the original copy of the appropriate Proposal (Technical or Financial)

### 5.3 Volume I - Technical Proposal

NOTE: Omit all **pricing information** from the Technical Proposal (Volume I). Include pricing information only in the Financial Proposal (Volume II).

**5.3.1** In addition to the instructions below, responses in the Offeror's Technical Proposal shall reference the organization and numbering of Sections in the RFP (e.g., "Section 2.2.1 Response . . ."; "Section 2.2.2 Response . . ."). All pages of both Proposal volumes shall be consecutively numbered from beginning (Page 1) to end (Page "x").

**5.3.2** The Technical Proposal shall include the following documents and information in the order specified as follows. Each section of the Technical Proposal shall be separated by a TAB as detailed below:

A. Title Page and Table of Contents (Submit under TAB A)

The Technical Proposal should begin with a Title Page bearing the name and address of the Offeror and the name and number of this RFP. A Table of Contents shall follow the Title Page for the Technical Proposal, organized by section, subsection, and page number.

B. Claim of Confidentiality (If applicable, submit under TAB A-1)

Any information which is claimed to be confidential and/or proprietary information should be identified by page and section number and placed after the Title Page and before the Table of Contents in the Technical Proposal, and if applicable, separately in the Financial Proposal. An explanation for each claim of confidentiality shall be included (see **Section 4.8 "Public Information Act Notice"**). The entire Proposal cannot be given a blanket confidentiality designation - any confidentiality designation must apply to specific sections, pages, or portions of pages of the Proposal and an explanation for each claim shall be included.

C. Offeror Information Sheet and Transmittal Letter (Submit under TAB B)

The Offeror Information Sheet (see **Appendix 2**) and a Transmittal Letter shall accompany the Technical Proposal. The purpose of the Transmittal Letter is to transmit the Proposal and acknowledge the receipt of any addenda to this RFP issued before the Proposal due date and time. Transmittal Letter should be brief, be signed by an individual who is authorized to commit the Offeror to its Proposal and the requirements as stated in this RFP.

D. Executive Summary (Submit under TAB C)

The Offeror shall condense and highlight the contents of the Technical Proposal in a separate section titled “Executive Summary.”

In addition, the Summary shall indicate whether the Offeror is the subsidiary of another entity, and if so, whether all information submitted by the Offeror pertains exclusively to the Offeror. If not, the subsidiary Offeror shall include a guarantee of performance from its parent organization as part of its Executive Summary (see **Section 4.16 “Offeror Responsibilities”**).

The Executive Summary shall also identify any exceptions the Offeror has taken to the requirements of this RFP, the Contract (**Attachment M**), or any other exhibits or attachments. Acceptance or rejection of exceptions is within the sole discretion of the State. **Exceptions to terms and conditions, including requirements, may result in having the Proposal deemed unacceptable or classified as not reasonably susceptible of being selected for award.**

E. Minimum Qualifications Documentation (If applicable, Submit under TAB D)

The Offeror shall submit any Minimum Qualifications documentation that may be required, as set forth in RFP **Section 1**. If references are required in **RFP Section 1**, those references shall be submitted in this section and shall contain the information described in both **Section 1** and **Section 5.3.2.I**.

F. Offeror Technical Response to RFP Requirements and Proposed Work Plan  
(Submit under TAB E)

- 1) The Offeror shall address each RFP requirement (**RFP Section 2** and **Section 3**) in its Technical Proposal with a cross reference to the requirement and describe how its proposed goods and services, including the goods and services of any proposed subcontractor(s), will meet or exceed the requirement(s). If the State is seeking Offeror agreement to any requirement(s), the Offeror shall state its agreement or disagreement. Any paragraph in the Technical Proposal that responds to an RFP requirement shall include an explanation of how the work will be performed. The response shall address each requirement in **Section 2** and **Section 3** in order, and shall contain a cross reference to the requirement.
- 2) Any exception to a requirement, term, or condition may result in having the Proposal classified as not reasonably susceptible of being selected for award or the Offeror deemed not responsible.
- 3) The Offeror shall give a definitive section-by-section description of the proposed plan to meet the requirements of the RFP, i.e., a Work Plan. The Work Plan shall include the specific methodology, techniques, and number of staff, if applicable, to be used by the Offeror in providing the required goods and services as outlined in **RFP Section 2, Contractor Requirements: Scope of Work**. The description shall include an outline of the overall management concepts employed by the Offeror and a project management plan, including project control mechanisms and overall timelines. Project deadlines considered contract deliverables must be recognized in the Work Plan.
- 4) The Offeror shall provide a draft Problem Escalation Procedure (PEP) that includes, at a minimum, titles of individuals to be contacted by the Contract Manager should problems arise under the Contract and explains how problems with work under the Contract will be escalated in order to resolve any issues in a timely manner. Final procedures shall be submitted as indicated in **Section 3.8**.

G. Offeror Qualifications and Capabilities (Submit under TAB G)

The Offeror shall include information on past experience with similar projects and services including information in support of the Offeror Experience criteria in **Section 3.10.1**. The

Offeror shall describe how its organization can meet the requirements of this RFP and shall also include the following information:

- 1) The number of years the Offeror has provided the similar goods and services;
- 2) The number of clients/customers and geographic locations that the Offeror currently serves;
- 3) The names and titles of headquarters or regional management personnel who may be involved with supervising the services to be performed under the Contract;
- 4) The Offeror's process for resolving billing errors; and
- 5) An organizational chart that identifies the complete structure of the Offeror including any parent company, headquarters, regional offices, and subsidiaries of the Offeror.

H. References (Submit under TAB H)

At least three (3) references are requested from customers who are capable of documenting the Offeror's ability to provide the goods and services specified in this RFP. References used to meet any Minimum Qualifications (see RFP **Section 1**) may be used to meet this request. Each reference shall be from a client for whom the Offeror has provided goods and services within the past five (5) years and shall include the following information:

- 1) Name of client organization;
- 2) Name, title, telephone number, and e-mail address, if available, of point of contact for client organization; and
- 3) Value, type, duration, and description of goods and services provided.

The Commission reserves the right to request additional references or utilize references not provided by the Offeror. Points of contact must be accessible and knowledgeable regarding Offeror performance.

I. List of Current or Prior State Contracts (Submit under TAB I)

Provide a list of all contracts with any entity of the State of Maryland for which the Offeror is currently performing goods and services or for which services have been completed within the last five (5) years. For each identified contract, the Offeror is to provide:

- 1) The State contracting entity;
- 2) A brief description of the goods and services provided;
- 3) The dollar value of the contract;
- 4) The term of the contract;
- 5) The State employee contact person (name, title, telephone number, and, if possible, e-mail address); and
- 6) Whether the contract was terminated before the end of the term specified in the original contract, including whether any available renewal option was not exercised.

Information obtained regarding the Offeror's level of performance on State contracts will be used by the Procurement Officer to determine the responsibility of the Offeror and considered as part of the experience and past performance evaluation criteria of the RFP.

J. Financial Capability (Submit under TAB J)

The Offeror must include in its Proposal a commonly-accepted method to prove its fiscal integrity. If available, the Offeror shall include Financial Statements, preferably a Profit and Loss (P&L) statement and a Balance Sheet, for the last two (2) years (independently audited preferred).

In addition, the Offeror may supplement its response to this Section by including one or more of the following with its response:

- 1) Dun & Bradstreet Rating;
- 2) Standard and Poor's Rating;
- 3) Lines of credit;
- 4) Evidence of a successful financial track record; and
- 5) Evidence of adequate working capital.

**K. Certificate of Insurance (Submit under TAB K)**

The Offeror shall provide a copy of its current certificate of insurance showing the types and limits of insurance in effect as of the Proposal submission date. The current insurance types and limits do not have to be the same as described in **Section 3.6**. See **Section 3.6** for the required insurance certificate submission for the apparent awardee.

**L. Subcontractors (Submit under TAB L)**

The Offeror shall provide a complete list of all subcontractors that will work on the Contract if the Offeror receives an award, including those utilized in meeting the MBE and VSBE subcontracting goal(s), if applicable. This list shall include a full description of the duties each subcontractor will perform and why/how each subcontractor was deemed the most qualified for this project. If applicable, subcontractors utilized in meeting the established MBE or VSBE participation goal(s) for this solicitation shall be identified as provided in the appropriate attachment(s) of this RFP.

**M. Legal Action Summary (Submit under TAB M)**

This summary shall include:

- 1) A statement as to whether there are any outstanding legal actions or potential claims against the Offeror and a brief description of any action;
- 2) A brief description of any settled or closed legal actions or claims against the Offeror over the past five (5) years;
- 3) A description of any judgments against the Offeror within the past five (5) years, including the court, case name, complaint number, and a brief description of the final ruling or determination; and
- 4) In instances where litigation is ongoing and the Offeror has been directed not to disclose information by the court, provide the name of the judge and location of the court.

**N. Economic Benefit Factors (Submit under TAB N)**

- 1) The Offeror shall submit with its Proposal a narrative describing benefits that will accrue to the Maryland economy as a direct or indirect result of its performance of the

Contract. Proposals will be evaluated to assess the benefit to Maryland's economy specifically offered. The economic benefit offered should be consistent with the Offeror's Total Proposal Price from **Attachment B**, the Financial Proposal Form. See COMAR 21.05.03.03A (3).

- 2) Proposals that identify specific benefits as being contractually enforceable commitments will be rated more favorably than Proposals that do not identify specific benefits as contractual commitments, all other factors being equal.
- 3) Offerors shall identify any performance guarantees that will be enforceable by the State if the full level of promised benefit is not achieved during the Contract term.
- 4) As applicable, for the full duration of the Contract, including any renewal period, or until the commitment is satisfied, the Contractor shall provide to the Procurement Officer or other designated agency personnel reports of the actual attainment of each benefit listed in response to this section. These benefit attainment reports shall be provided quarterly, unless elsewhere in these specifications a different reporting frequency is stated.
- 5) In responding to this section, the following do not generally constitute economic benefits to be derived from the Contract:
  - a) generic statements that the State will benefit from the Offeror's superior performance under the Contract;
  - b) descriptions of the number of Offeror employees located in Maryland other than those that will be performing work under the Contract; or
  - c) tax revenues from Maryland-based employees or locations, other than those that will be performing, or used to perform, work under the Contract.
- 6) Discussion of Maryland-based employees or locations may be appropriate if the Offeror makes some projection or guarantee of increased or retained presence based upon being awarded the Contract.
- 7) Examples of economic benefits to be derived from a contract may include any of the following. For each factor identified below, identify the specific benefit and contractual commitments and provide a breakdown of expenditures in that category:
  - a) The Contract dollars to be recycled into Maryland's economy in support of the Contract, through the use of Maryland subcontractors, suppliers and joint venture partners. **Do not include actual fees or rates paid to subcontractors or information from your Financial Proposal;**
  - b) The number and types of jobs for Maryland residents resulting from the Contract. Indicate job classifications, number of employees in each classification and the aggregate payroll to which the Offeror has committed, including contractual commitments at both prime and, if applicable, subcontract levels; and whether Maryland employees working at least 30 hours per week and are employed at least 120 days during a 12-month period will receive paid leave. If no new positions or subcontracts are anticipated as a result of the Contract, so state explicitly;
  - c) Tax revenues to be generated for Maryland and its political subdivisions as a result of the Contract. Indicate tax category (sales taxes, payroll taxes, inventory taxes and estimated personal income taxes for new employees). Provide a forecast of the total tax revenues resulting from the Contract;

- d) Subcontract dollars committed to Maryland small businesses and MBEs; and
  - e) Other benefits to the Maryland economy which the Offeror promises will result from awarding the Contract to the Offeror, including contractual commitments. Describe the benefit, its value to the Maryland economy, and how it will result from, or because of the Contract award. Offerors may commit to benefits that are not directly attributable to the Contract, but for which the Contract award may serve as a catalyst or impetus.
- O. Technical Proposal - Required Forms and Certifications (Submit under TAB O)
- 1) All forms required for the Technical Proposal are identified in Table 1 of **Section 7** – RFP Attachments and Appendices. Unless directed otherwise by instructions within an individual form, complete, sign, and include all required forms in the Technical Proposal, under TAB O.
  - 2) Offerors shall furnish any and all agreements and terms and conditions the Offeror expects the State to sign or to be subject to in connection with or in order to use the Offeror's services under this Contract. This includes physical copies of all agreements referenced and incorporated in primary documents, including but not limited to any software licensing agreement for any software proposed to be licensed to the State under this Contract (e.g., EULA, Enterprise License Agreements, Professional Service agreement, Master Agreement) and any AUP. The State does not agree to terms and conditions not provided in an Offeror's Technical Proposal and no action of the State, including but not limited to the use of any such software, shall be deemed to constitute acceptance of any such terms and conditions. Failure to comply with this section renders any such agreement unenforceable against the State.

#### **5.4 Volume II – Financial Proposal**

The Financial Proposal shall contain all price information in the format specified in **Attachment B**. The Offeror shall complete the Financial Proposal Form only as provided in the Financial Proposal Instructions and the Financial Proposal Form itself. Do not amend, alter, or leave blank any items on the Financial Proposal Form or include additional clarifying or contingent language on or attached to the Financial Proposal Form. Failure to adhere to any of these instructions may result in the Proposal being determined to be not reasonably susceptible of being selected for award and rejected by the Commission

**THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.**

## 6 Evaluation and Selection Process

### 6.1 Evaluation Committee

Evaluation of Proposals will be performed in accordance with COMAR 21.05.03 by a committee established for that purpose and based on the evaluation criteria set forth below. The Evaluation Committee will review Proposals, participate in Offeror oral presentations and discussions, and provide input to the Procurement Officer. The Commission's reserves the right to utilize the services of individuals outside of the established Evaluation Committee for advice and assistance, as deemed appropriate.

During the evaluation process, the Procurement Officer may determine at any time that a particular Offeror is not susceptible for award.

### 6.2 Technical Proposal Evaluation Criteria

The criteria to be used to evaluate each Technical Proposal are listed below in descending order of importance. Unless stated otherwise, any sub-criteria within each criterion have equal weight.

**6.2.1** Offeror's Technical Response to Requirements and Work Plan (See RFP § 5.3.2.F)

The State prefers the Offeror's Technical Proposal to illustrate a comprehensive understanding of work requirements and mastery of the subject matter, including an explanation of how the work will be performed. Proposals which include limited responses to work requirements such as "concur" or "will comply" will receive a lower ranking than those Proposals that demonstrate an understanding of the work requirements and include plans to meet or exceed them.

**6.2.2** Experience and Qualifications of Proposed Staff (See RFP § 5.3.2.G)

**6.2.3** Offeror Qualifications and Capabilities, including proposed subcontractors (See RFP § 5.3.2.H)

**6.2.4** Economic Benefit to State of Maryland (See RFP § 5.3.2.N)

### 6.3 Financial Proposal Evaluation Criteria

All Qualified Offerors (see **Section 6.5.2.D**) will be ranked from the lowest (most advantageous) to the highest (least advantageous) price based on the Total Proposal Price within the stated guidelines set forth in this RFP and as submitted on **Attachment B** - Financial Proposal Form.

### 6.4 Reciprocal Preference

**6.4.1** Although Maryland law does not authorize procuring agencies to favor resident Offerors in awarding procurement contracts, many other states do grant their resident businesses preferences over Maryland contractors. COMAR 21.05.01.04 permits procuring agencies to apply a reciprocal preference under the following conditions:

- A. The Maryland resident business is a responsible Offeror;
- B. The most advantageous Proposal is from a responsible Offeror whose principal office, or principal base of operations is in another state;
- C. The other state gives a preference to its resident businesses through law, policy, or practice; and

- D. The preference does not conflict with a federal law or grant affecting the procurement Contract.
- 6.4.2 The preference given shall be identical to the preference that the other state, through law, policy, or practice gives to its resident businesses.

## 6.5 Selection Procedures

### 6.5.1 General

- A. The Contract will be awarded in accordance with the Competitive Sealed Proposals (CSP) method found at COMAR 21.05.03. The CSP method allows for the conducting of discussions and the revision of Proposals during these discussions. Therefore, the State may conduct discussions with all Offerors that have submitted Proposals that are determined to be reasonably susceptible of being selected for contract award or potentially so. However, the State reserves the right to make an award without holding discussions.
- B. With or without discussions, the State may determine the Offeror to be not responsible or the Offeror's Proposal to be not reasonably susceptible of being selected for award at any time after the initial closing date for receipt of Proposals and prior to Contract award.

### 6.5.2 Selection Process Sequence

- A. A determination is made that the MDOT Certified MBE Utilization and Fair Solicitation Affidavit (**Attachment D-1A**) is included and is properly completed, if there is a MBE goal. In addition, a determination is made that the VSBE Utilization Affidavit and subcontractor Participation Schedule (**Attachment E-1**) is included and is properly completed, if there is a VSBE goal.
- B. Technical Proposals are evaluated for technical merit and ranked. During this review, oral presentations and discussions may be held. The purpose of such discussions will be to assure a full understanding of the State's requirements and the Offeror's ability to perform the services, as well as to facilitate arrival at a Contract that is most advantageous to the State. Offerors will be contacted by the State as soon as any discussions are scheduled.
- C. Offerors must confirm in writing any substantive oral clarifications of, or changes in, their Technical Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror's Technical Proposal. Technical Proposals are given a final review and ranked.
- D. The Financial Proposal of each Qualified Offeror (a responsible Offeror determined to have submitted an acceptable Proposal) will be evaluated and ranked separately from the Technical evaluation. After a review of the Financial Proposals of Qualified Offerors, the Evaluation Committee or Procurement Officer may again conduct discussions to further evaluate the Offeror's entire Proposal.
- E. When in the best interest of the State, the Procurement Officer may permit Qualified Offerors to revise their initial Proposals and submit, in writing, Best and Final Offers (BAFOs). The State may make an award without issuing a request for a BAFO.

## 6.6 Award Determination

Upon completion of the Technical Proposal and Financial Proposal evaluations and rankings, each Offeror will receive an overall ranking. The Procurement Officer will recommend award of the Contract to the responsible Offeror that submitted the Proposal determined to be the most advantageous to the State. In making this most advantageous Proposal determination, technical factors will receive equal weight.

## 6.7 Documents Required upon Notice of Recommendation for Contract Award

Upon receipt of a Notification of Recommendation for Contract award, the apparent awardee shall complete and furnish the documents and attestations as directed in Table 1 of **Section 7 – RFP Attachments and Appendices**.

**THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.**

## Attachment B. Financial Proposal Instructions & Form

### B-1 Financial Proposal Instructions

In order to assist Offerors in the preparation of their Financial Proposal and to comply with the requirements of this solicitation, Financial Proposal Instructions and a Financial Proposal Form have been prepared. Offerors shall submit their Financial Proposal on the Financial Proposal Form in accordance with the instructions on the Financial Proposal Form and as specified herein. Do not alter the Financial Proposal Form or the Proposal may be determined to be not reasonably susceptible of being selected for award. The Financial Proposal Form is to be signed and dated, where requested, by an individual who is authorized to bind the Offeror to the prices entered on the Financial Proposal Form.

The Financial Proposal Form is used to calculate the Offeror's TOTAL Proposal PRICE. Follow these instructions carefully when completing your Financial Proposal Form:

- A) All Unit and Extended Prices must be clearly entered in dollars and cents, e.g., \$24.15. Make your decimal points clear and distinct.
- B) All Unit Prices must be the actual price per unit the State will pay for the specific item or service identified in this RFP and may not be contingent on any other factor or condition in any manner.
- C) All calculations shall be rounded to the nearest cent, e.g., .344 shall be .34 and .345 shall be .35.
- D) Any goods or services required through this RFP and proposed by the vendor at **No Cost to the State** must be clearly entered in the Unit Price, if appropriate, and Extended Price with **\$0.00**.
- E) Every blank in every Financial Proposal Form shall be filled in. Any changes or corrections made to the Financial Proposal Form by the Offeror prior to submission shall be initialed and dated.
- F) Except as instructed on the Financial Proposal Form, nothing shall be entered on or attached to the Financial Proposal Form that alters or proposes conditions or contingencies on the prices. Alterations and/or conditions may render the Proposal not reasonably susceptible of being selected for award.
- G) It is imperative that the prices included on the Financial Proposal Form have been entered correctly and calculated accurately by the Offeror and that the respective total prices agree with the entries on the Financial Proposal Form. Any incorrect entries or inaccurate calculations by the Offeror will be treated as provided in COMAR 21.05.03.03.F, and may cause the Proposal to be rejected.
- H) If option years are included, Offerors must submit pricing for each option year. Any option to renew will be exercised at the sole discretion of the State and comply with all terms and conditions in force at the time the option is exercised. If exercised, the option period shall be for a period identified in the RFP at the prices entered in the Financial Proposal Form.
- I) All Financial Proposal prices entered below are to be fully loaded prices that include all costs/expenses associated with the provision of services as required by the RFP. The Financial Proposal price shall include, but is not limited to, all: labor, profit/overhead, general operating, administrative, and all other expenses and costs necessary to perform the work set forth in the solicitation.
